Lenexa, KS 66210

### **More ...**

Phoenix Natural Wellness is a KC-based company and the area's only CBD superstore, now with four locations: two in Overland Park, one in Ottawa, and the Lenexa store. We carefully select from the highest quality products on the CBD market and offer the largest selection in town, from oils and tinctures to edibles, vapes, creams & lotions and more. Our founders discovered the life-changing benefits of CBD after witnessing the impact it had on their son with epilepsy and their daughter with autism.

CBD, short for cannabidiol, is one of the many cannabinoid molecules produced by cannabis. CBD stands out from other cannabinoids because it is both non-psychoactive (unlike THC) and has a broad range of medical applications, including pain relief, reduced inflammation and anxiety. Our CBD is hemp-derived and 100% THC-free.

The Lenexa store is unique in that it's the first franchise of the Phoenix brand, and its owner, Angie Doyal, recently suffered two strokes. (See recent [media coverage](#).) After using CBD to help relieve the anxiety and depression she suffered as a result of the strokes, she decided to make a complete career change and open her own CBD store. Today she enjoys helping others find relief from pain, anxiety, sleep disorders and more with CBD.
